Beta crystal form, blue shade violet

Excellent overall properties

Recommended for inks, high-grade industrial paints, implement enamels, agricultural equipment, and powder coatings applications

**Applications**

**PLASTICS**
- HDPE ●
- PP ●

**COATINGS**
- General Industrial ●
- Automotive Refinish ●
- Powder Coating ●

**INKS**
- Water ●
- Solvent ●
- Ultra Violet ●

**RECOMMENDATIONS:**  ● Frequently Used  ○ Limited Use  ○ Not Normally Used
PRODUCT OVERVIEW

DCC LANSCO® 1419 is a bright, blue shade quinacridone with a similar shade to that of thioindigo red with excellent overall properties. FDA approved (Section 178.3297).

DCC LANSCO 1419 is extensively used for high-grade industrial paints, implement enamels, agricultural equipment and powder coatings applications. 1419 is also frequently used in water, solvent, UV, and ink jet inks as well as for polyester films, offset inks and metal deco printing. 1419 also can find uses in the plastics industry in PVC, HDPE and occasionally in polypropylene and spin dyeing. Additional uses are found in the textile industry and in wood stain finishes producing a variety of shades of brown when blended with yellows and carbon black.

KEY BENEFITS

• Blue shade violet
• Excellent overall properties
