**STATEMENT OF INTENT:**

Monteith does not intend to reduce the use of Pigment Red 108, a cadmium containing pigment. Monteith is a subsidiary of Dominion Colour Corporation, a manufacturer and supplier

**Ontario Toxic Reduction Act, 2009 and Regulation 445/09  
2015 Toxics Substance Plan Summary**

of inorganic and organic pigments. Therefore, any reduction in the use of this pigment will negatively impact the manufacturing capacity and the business growth of Monteith and its parent company. Monteith will continue to use Pigment Red 108 in compliance with all Federal and Provincial Regulations and Municipal by-laws.

**OBJECTIVE:**

Monteith is dedicated to protecting the environment and conducting its operations in a manner that minimizes the negative impact on environment. Monteith is committed to the protection of human health and the environment and strives to continually improve its environmental performance.

**DESCRIPTION OF SUBSTANCES:**

<b>Substance (CAS)</b>	<b>Description of Primary Use in the Facility</b>
Cadmium  (and its compounds)	Cadmium containing pigment, Pigment Red 108, is used to prepare custom dispersions for industrial coating markets.

## **Ontario Toxic Reduction Act, 2009 and Regulation 445/09 2015 Toxics Substance Plan Summary**

### **TOXIC SUBSTANCE REDUCTION**

At this time, there are no technically and economically feasible reduction options for the use of the cadmium pigment, Pigment Red 108, at this facility. As a division of a manufacturer and supplier of inorganic and organic pigments, Monteith strives to provide customers an alternative form of the dry pigment. In most cases, dispersions are prepared according to customers' specifications.

Any reductions in the use of this cadmium based pigment, Pigment Red 108, will negatively impact the manufacturing volumes and growth of this business and its parent company. No new reductions options have been identified during the toxics reduction planning (On. Reg. 455/09).

### **ADDITIONAL ACTIONS TAKEN OUTSIDE OF THE PLAN:**

Monteith's current operating practices have been developed to comply with all relevant regulations. Monteith strives to produce pigment dispersion for Canadian and world markets in an environmentally responsible manner. Monteith is committed to the operation of their processes and facilities, from the receipt of raw materials through the manufacture of the products and their distribution to the customers, in a manner that protects the environment, the community, and the health and safety of its employees.

Monteith incorporates programs to manage air emissions, hazardous chemicals, water discharges, soil contamination and waste disposal.

### **PLAN SUMMARY STATEMENT:**

This plan accurately reflects the content of the toxic substance reduction plan for cadmium (and its compounds) prepared by Dominion Colour Corporation, dated December 16, 2016.
