

DCC Lansco Launches Custom Colour Matching Service

Finding a specific color match is imperative in the coatings, plastics and inks industries. The knowledge base gained over so many years in the pigment industry has allowed DCC Lansco to surpass our customers' requirements. DCC Lansco announced an expansion of our color matching capabilities as the company has created an online [Custom Color Matching Service](#).

With over 70 years of experience, our highly-trained staff are able to match any color one requires.

Simply insert the color and technical specifications in the Color Matching Portal on the company website and a staff member will be in contact.

DCC Lansco also offers [RAL matching](#) and [Brand matching](#) services, and can also help find [alternatives for lead-chromate pigments](#).
