### **Responsible Use Policy for Pigment Yellow 34 (PY.34 or Chrome Yellow) and Pigment Red 104 (PR.104 or Molybdate Orange)**

DCC manufactures and supplies inorganic and organic colour pigments, pigment preparations, and dispersions to our customers in the plastics, coatings, printing ink and paper industries worldwide.

In order to prevent consumer and child exposure, our lead chromate pigments, PY.34 (Chrome Yellow) and PR.104 (Molybdate Orange), are only sold for use in industrial and professional applications. As a responsible supplier of PY.34 and PR.104 DCC:

- supports legally applicable lead-use restrictions in place in Canada, the United States and the European Union and in all other jurisdictions where we do business.
- recommends the adoption of similar lead-use restrictions by all jurisdictions not currently regulating the use of lead in paint and printing ink
- supports initiatives by various national and international associations to prevent children's exposure to paints containing lead and to eliminate lead based pigments from decorative paints and similar applications most likely to contribute to childhood lead exposure.
- strives to protect the health and safety of workers making, using or handling our lead-based pigments

DCC supports the safety and protection of human health and the environment. We ensure that our products are manufactured and used in a responsible manner. In order to prevent consumer and child exposure our PY.34 and PR.104 products are only sold for use in industrial and professional applications. DCC does not endorse or tolerate the sale or use of PY.34 and PR.104 in:

- Decorative/Household/Residential Coatings
- Children's articles including toys, paints, jewelry and equipment
- Consumer products
- Printing inks for consumer products
- Food and food packaging
- Drugs and medical devices
- Ceramics and Glassware
- Cosmetics and tattoos

To assist our direct and indirect customers to responsibly use PY.34 and PR.104, DCC provides Restrictions and Limitations of Use Advice, a Safe Handling of Lead Chromates booklet, Safety Data Sheets and training to our employees, sales staff, customers distributors and downstream users. DCC will only supply those customers who are committed to the responsible handling and use of PY.34 and PR.104.
