# DCC Yellow RMX

## Pigment Yellow 184

### CHEMICAL CLASS

Bismuth Vanadate  
C.A.S. # 14059-33  
EC 237-898-0

### PRODUCT OVERVIEW

**DCC Yellow RMX** is the reddest pure Bismuth Vanadate in the market with the highest chroma, opacity and colour strength. This remarkable pigment is a clean, lemon shade yellow that not only combines very good hiding properties with superior dispersion but also has excellent weatherfastness in both masstone and tint. The low oil absorption number means higher pigment loading which, combined with the ability to achieve the higher saturation shades, is an invaluable tool for the productive formulator.

Going lead free? No other lead free pigment will meet the performance needs better than **DCC Yellow RMX**.

**DCC Yellow 4RMX** can also replace more expensive in-use transparent organic pigments. As **DCC Yellow RMX** is zinc free it is suitable for products with the ECO label.

### SHADE INDICATOR

### THIS PRODUCT RANGE IS SUPPORTED BY:

- DCC's global presence
- DCC's technical service and support
- Local warehousing capabilities that ensure on-time delivery
- DCC's ability to consistently deliver quality products

### APPLICATIONS

	DCC Yellow RMX
Architectural Water & Universal	■
Architectural Solvent	■
Industrial Fast Air Drying	■
Industrial Oven Cured	■
Coil Coatings	■
Automotive Coatings	■
Powder Coatings	■

### RESISTANCE & WEATHERFASTNESS PROPERTIES

	DCC Yellow RMX
Weatherfastness	
• Masstone	4-5
• Tint	5
Resistance	
• Dilute Alkali	E
• Dilute Acid	VG - E

### COLOUR POSITIONING (AM paint full shade)

**LEGEND:** E - Excellent VG - Very Good G - Good F - Fair P - Poor **RECOMMENDATIONS:** ■ Frequently Used ■ Limited Use □ Not Normally Used  
**WEATHERFASTNESS:** 1 - Severe Change In Shade 5 - No Change In Shade

The information in this handout is based on extensive testing and application experience and is believed to be a reliable indication of the results that may be expected. However, the data does not constitute a specification for the products, and is offered only as a guide to performance without guarantee or warranty of any kind. Because of the difficulties of modern colour reproduction, the shades may vary slightly from the final colour application. Since many variables have a strong influence on pigment performance, the users are encouraged to test each product in their own laboratory prior to use.
